The following graph compares a \$10,000 investment in the International Equity Fund to a theoretical investment of the same amount in the MSCI ACWI ex-U.S. Index:

*This performance data represents past performance and does not guarantee future results. There is no guarantee that the circumstances leading to this performance will be replicated in the future. Investment return and principal value will fluctuate and fund shares, when redeemed, may be worth less than the premiums you paid. Recent performance may be less than the figures shown.*

The performance figures above reflect the reinvestment of all dividends and capital gains, and the deduction of investment management fees and fund-level expenses, but not contract-level charges. If contract-level charges were reflected, the performance quoted would be significantly lower than shown. The accompanying Performance and Returns for the State Farm [Variable Deferred Annuity](#) or [Variable Universal Life](#) policy reflect contract-level charges.

**This fund may not be currently available in your state.** It is possible to invest in this underlying Fund only through the purchase of a State Farm Variable Deferred Annuity or Variable Universal Life Insurance policy. There is no assurance that the Fund will achieve its investment objective. An investment should be made with an understanding of the risks that an investment in equity securities entails. These include the risk that the financial condition of the issuers of the securities in the portfolio, or the condition of the stock market in general, may decline. Fund units, when redeemed, may be worth more or less than their original cost. The International Equity Fund invests all of its assets primarily in foreign companies. Investing in foreign securities involves risks not normally associated with investing in the U.S., including higher trading and custody costs, less stringent accounting, legal and reporting practices, potential for political and economic instability, and the fluctuation and potential regulation of currency exchange and exchange rates.
