

# Roofing Installation Information and Certification for Reduction in Residential Insurance Premiums

**Notice to Homeowner.** Completion of this certificate may entitle you to a reduction in your residential insurance premium. This certification form is solely for the purpose of enabling residential property owners to apply for a reduction in their residential insurance premium and it is not to be construed as any type of express or implied warranty by the manufacturer, supplier, installer, or State Farm Fire and Casualty Company. Premium reductions are not available for roofs that have been overlaid onto existing roofs.

Print Name

Print name of Company

roofing company, do hereby certify that I have inspected or installed, in accordance with the manufacturer's specifications on the above described residence, a roof shingle, tile, panel, sheet, etc. appearing on the State Farm® Qualifying Roofing Products Listing as of the date of installation. It is listed as complying with Underwriters' Laboratory Standard 2218, Impact Standard for Impact Resistance of Prepared Roof Covering Materials, or as complying with Factory Mutual Standard 4473, Specification Test Standards for Impact Resistant Testing of Rigid Roofing Materials by Impacting with Freezer Ice Balls. The impact resistant roof covering was installed over the entire roofing surface, including the main areas of the roof and the hips and ridges (including the ridge vent systems). The physical properties of the product used in hip and ridge applications must be of like kind and quality to that of the installed approved product. The roof covering has not been overlaid onto existing roofing material (other than qualifying metal roofs), and is free of defects or damage, including hail damage.
